

# Water security beyond Covid-19

*Rachel Cooper*

*GSDRC, University of Birmingham*

*April 2020*

## Question

*What can developing countries do over the mid-term horizon (next 5 years) to improve water security to prepare for a potential increase in disease outbreaks and pandemics such as Covid-19?*

## Contents

1. Summary
2. Pandemics and water
3. Adequate water availability
4. Good quality water
5. Water resources management
6. Affordable WASH services
7. References

---

*The K4D helpdesk service provides brief summaries of current research, evidence, and lessons learned. Helpdesk reports are not rigorous or systematic reviews; they are intended to provide an introduction to the most important evidence related to a research question. They draw on a rapid desk-based review of published literature and consultation with subject specialists.*
