

Water for the urban poor and Covid-19

Rachel Cooper
GSDRC, University of Birmingham
4 May 2020

Question

What practical measures can be taken to improve the availability of water for the urban poor in light of COVID-19?

Contents

1. Summary
2. Free water
3. New water sources
4. Practical measures to increase availability
5. References

The K4D helpdesk service provides brief summaries of current research, evidence, and lessons learned. Helpdesk reports are not rigorous or systematic reviews; they are intended to provide an introduction to the most important evidence related to a research question. They draw on a rapid desk-based review of published literature and consultation with subject specialists.

Helpdesk reports are commissioned by the UK Department for International Development and other Government departments, but the views and opinions expressed do not necessarily reflect those of DFID, the UK Government, K4D or any other contributing organisation. For further information, please contact helpdesk@k4d.info.
